

# Case Study

MResult helped client team at one of the world's largest Pharmaceuticals to deliver twice as many analytic projects as before

## Solution

Analytics as a Service and  
Data Portals

## Company

Large American  
Pharmaceutical

10,000+ employees

2015 Financials > \$20B

### CHALLENGE

- Analysts do not have time to focus on core activities
- Data from disparate sources and in different formats
- Data Quality

### SOLUTION

- Analytics as a Service
- Data Acquisition and Consolidation Services

### OUTCOME

- Capacity of the client team increased significantly
- Consistent way to collect data through Portals which is now being extended to other groups
- Time Saving for the On shore Analyst Team
